

Tao Orion is a permaculture designer, teacher, homesteader, and mother living in the southern Willamette Valley of Oregon. She teaches permaculture design at Oregon State University and at Aprovecho, a 40-acre nonprofit sustainable-living educational organization. Tao con-

sults on holistic farm, forest, and restoration planning through Resilience Permaculture Design, LLC. She holds a degree in agroecology and sustainable agriculture from UC Santa Cruz.

Toby Hemenway is the author of the first major North American book on permaculture, *Gaia's Garden: A Guide to Home-Scale Permaculture*. After obtaining a degree in biology from Tufts University, Toby worked for many years as a researcher in genetics and immunology, first in academic

laboratories at Harvard and the University of Washington in Seattle, and then at Immunex, a major medical biotech company.

BEYOND THE WAR ON INVASIVE SPECIES offers a much-needed alternative perspective on invasive species and the best practices for their management based on a holistic, permaculture-inspired framework. It demonstrates that there is more to the story of invasive species than is commonly conceived, and offers ways of understanding their presence and ecosystem effects in order to make more ecologically responsible choices in land restoration and biodiversity conservation that address the root of the invasion phenomenon.

A PARADIGM SHIFT IN INVASIVE SPECIES MANAGEMENT

THE PERMACULTURE CITY provides a new way of thinking about urban living, with practical examples for creating abundant food, energy security, close-knit communities, local and meaningful livelihoods, and sustainable policies in our cities and towns. The same nature-based approach that works so beautifully for growing food—connecting the pieces of the landscape together in harmonious ways—applies perfectly to many of our other needs.
