Promemoria (Reminder)

GIANNI RODARI

illustrated by GUIDO SCARABOTTOLO

Promemoria is a special hymn to read and learn by heart.

A picture book about peace, love and the power of imagination.

Gianni Rodari reminds us that in life some choices are much simpler than we think, and making war is undoubtedly something we should never do.

The great Guido Scarabottolo illustrated this powerful poetry for us, playing with the reversal mechanism so dear to the Master of Fantasy: the illustrations stand out on the inside, while the whole text is on the cover. The artist used the color of the peace flag and the word "war" is almost erased by a black stain of color.

A masterpiece!

There are things to do every day: to wash yourself, to study, to play, to set the table at noon.

There are things to do at night: to close your eyes, to sleep, to have dreams to dream, to have ears not to hear.

There are things never to be done, neither by day nor by night, neither by sea nor by land: for example the war.

The Grammar of Imagination

GIANNI RODARI
illustrated by LUCIO SCHIAVON

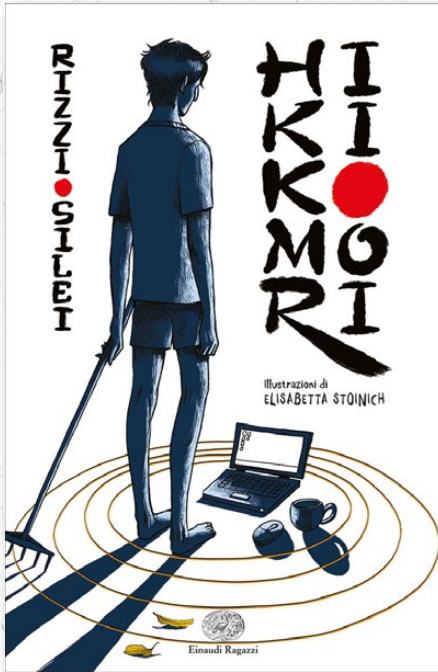

This book is Gianni Rodari's true poetic. It focuses on how our imagination works in order to take us beyond the wall of a dull scholastic routine and into the fascinating world of creativity. According to Rodari, a word is similar to a stone thrown into a pond: as the stone produces a series of rapidly changing concentric ripples, any word can trigger incredibly intricate chain-reaction involving sounds and images, dreams and memories

A special edition to celebrate the 50 years since its initial publication, with the new and modern illustrations by Lucio Schiavon.

A great classic, translated all over the world.
